

NEWS RELEASE 08-06

May 15, 2008

TWO DIAMOND HOLES COMPLETED – MINERALISATION INTERSECTED

XDM Resources Inc. (“XDM” or the “Company”) is pleased to announce that its diamond drilling programme at the Kele project in the Solomon Islands, which commenced on the 9th of March 2008, has completed its first (KLDD001) and second (KLDD002) diamond drill hole with gold mineralisation intersected at 36 metres and 100 metres respectively.

XDM is optimistic that the mineralised zone will translate into noteworthy results and is eagerly awaiting the return of assay information.

A second drill rig is being planned for the Kele drilling programme to fast track the investigation of the intrusive gold style mineralised zone. Previous exploration and field activities in the area indicate a strike of more than 700 metres and average gold grades of more than 4 grams per tonne.

The Company supervises drilling under a Quality Assurance and Quality Control (“QAQC”) procedure following National Instrument 43-101 (“NI 43-101”) guidelines.

The drilling company, Radial Drilling Australia Pty Ltd (“Radial”) have overcome their start-up issues and XDM expects drilling to progress considerably faster on the subsequent holes. Radial have now commenced their third diamond hole a short distance away, which the Company anticipates will provide mineralisation continuity along strike.

ABOUT XDM

XDM is a private Canadian company with a 100% interest in four large copper-gold and gold exploration properties in the Solomon Islands.

Cautionary Statement Regarding Forward-Looking Information

All statements, trend analysis and other information contained in this press release relative to markets for XDM’s trends in resources, recoveries, production and anticipated expense levels, as well as other statements about anticipated future events or results constitute forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as “seek”, “anticipate”, “believe”, “plan”, “estimate”, “expect” and “intend” and statements that an event or

result “may”, “will”, “should”, “could” or “might” occur or be achieved and other similar expressions. Forward-looking statements are subject to business and economic risks and uncertainties and other factors that could cause actual results of operations to differ materially from those contained in the forward-looking statements. Forward-looking statements are based on estimates and opinions of management at the date the statements are made. Some of these risks, uncertainties and other factors are described under the heading “Risk Factors” in the Company’s annual information form. XDM does not undertake any obligation to update forward-looking statements even if circumstances or management’s estimates or opinions should change other than as required by applicable law. Investors should not place undue reliance on forward-looking statements.
