

NEWS RELEASE 08-12

December 2, 2008

## PHASE ONE DRILLING AT KELE COMPLETED

XDM Resources Inc. (“XDM” or the “Company”) is pleased to announce that it has completed the first phase of diamond drilling at the Kele project.

Results of the drilling programme will be announced in the New Year.

The Company supervised drilling under a Quality Assurance and Quality Control (“QAQC”) procedure following National Instrument 43-101 (“NI 43-101”) guidelines. Samples are processed at the Company’s sample preparation laboratory in Honiara then assayed by Australian Laboratories Services (“ALS”) in Australia.

### ABOUT XDM

XDM is a private Canadian company with a 100% interest in four large copper-gold and gold exploration properties in the Solomon Islands.

### Cautionary Statement Regarding Forward-Looking Information

*All statements, trend analysis and other information contained in this press release relative to markets for XDM’s trends in resources, recoveries, production and anticipated expense levels, as well as other statements about anticipated future events or results constitute forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as “seek”, “anticipate”, “believe”, “plan”, “estimate”, “expect” and “intend” and statements that an event or result “may”, “will”, “should”, “could” or “might” occur or be achieved and other similar expressions. Forward-looking statements are subject to business and economic risks and uncertainties and other factors that could cause actual results of operations to differ materially from those contained in the forward-looking statements. Forward-looking statements are based on estimates and opinions of management at the date the statements are made. Some of these risks, uncertainties and other factors are described under the heading “Risk Factors” in the Company’s annual information. XDM does not undertake any obligation to update forward-looking statements even if circumstances or management’s estimates or opinions should change other than as required by applicable law. Investors should not place undue reliance on forward-looking statements.*

*All scientific and technical information contained in this news release has been prepared under the supervision of Anthony Schreck, the Company’s Chief Geoscientist. Anthony Schreck has verified the technical data disclosed for accuracy and correctness. Potential quantity and grade is conceptual in nature. There has been insufficient exploration to define a mineral resource on any of the Company’s properties and it is uncertain if further exploration will result in any such target being delineated as a mineral resource. QA/QC procedures were applied during the execution of the work being reported upon.*
